Do we have a contingency for these trucks to be removed tomorrow or Tuesday? (If they were black or indigenous...)

What normative authority do we have or is some order needed? EA?

Here if you want to chat.

Make sure to use Michael to get in tomorrow. I've set it up so that he's working with security

Most seem to be leaving from what I see. We have not been told of any contingency planning to remove anyone, but would need to be done with city of ottawa and Ontario

Have contacted Michael
